On behalf of the Kelley School of Business students, faculty, and professional development team at Indiana University, I am pleased to share our 2019 Employment Report.

I want to first thank all of our corporate partners and dedicated alumni who do so much to support our students and staff. Yes, we appreciate the employment opportunities that are offered each year; but beyond that we know that they spend so many extra hours talking to our students through recruiting events and informational interviews, and invest a lot of effort in academic and cocurricular events while on campus. We are proud to be associated with you.

We are also proud of our students, who are at the heart of the numbers that are represented here in this book. We are fortunate to attract students who are humble, talented, and tenacious—qualities that allow them to succeed both at Kelley and at top organizations around the world. While at Kelley we believe we enhance those qualities and equip them to:

- Influence their peers and supervisors through coaching and feedback
- Establish a vision for a project or team and create an action plan to bring it to life
- Effectively lead and work within teams
- Generate insights from data
- Model ethics and values in their daily interactions

Kelley has a long-standing reputation of excellence and innovation inside and outside of the classroom, ensuring that every student is both technically proficient in their chosen field and also battle-tested through experiential opportunities. We often hear from our top hiring companies how quickly Kelley graduates contribute value in their organizations relative to their hiring class. It also helps explain why so many of our alumni hold C-level positions at Fortune 500 firms.

Corporate recruiters have seen this value, and ranked the Kelley School with an “A” in terms of the quality of our students, the responsiveness of our career services staff, and the quality of our learning facilities. Our students appreciate this as well, and they rated our career management staff as the one of the top teams in the world and our faculty #1 in terms of overall quality.

Our career services team has more than 100 years of experience in the business environment, and has experience hiring and leading MBAs from top schools like Kelley. This well-rounded perspective is a great benefit to our hiring companies, as they not only prepare our students to succeed but also have the ability to consult with firms on their talent needs.

We are always prepared and happy to provide you with any information that you need to help with the recruiting of students from Kelley. For additional recruiting and program information, please go to our website at gokelley.iu.edu/gcs. I look forward to working with you soon.

Eric Johnson
Executive Director
Graduate Career Services
